

Interested in Healthcare?

McLeod Health

The Choice for Medical Excellence

Latta Health Career Cadets

Kick Off Meeting Wednesday October 20th at 3:45

Latta Schools invites you to take part in an opportunity for a diverse group of students interested in healthcare as a career through a professional pathway program intentionally designed to assist students by providing insight, inspiration, education, exposure, tours, and networking with local healthcare professionals. Each month, student cadets will learn about a different topic in healthcare and have the opportunity to interact with this profession in a real-world setting.

Pee Dee AHEC Health Career Cadets are part of a regional network of high school partners wherein student cadets engage in discovering various career paths that the healthcare profession has to offer. McLeod Health, as a part of the McLeod Health system, will partner with Pee Dee AHEC and Latta schools to facilitate a learning and professional environment that is fun, meaningful, and gives student cadets an unparalleled advantage as they seek to determine their career path.

For more information, please contact Leigh Sloan, School Counselor.
