

Dillon School District 3
Information on External Applications

Date of Application: 11/21/2023

Application: OnShape

Site: <https://www.onshape.com>

Company Location: Boston, MA (business unit of PTC, Inc.)

Student Accounts: Yes

Any Data Integrations Needed with District: If you choose the free option then students will need to be able to receive an initial email from the company. They indicated that this is the only email that is required to be received by the students. The paid Enterprise edition has integrations with other products for SSO including Google.

Data Storage Location: Not able to determine this but it does run on Amazon Cloud Services

Privacy/Security Information: <https://www.onshape.com/en/privacy-center/education-plans-privacy>

Key Privacy points:

Pros:

- Compliant with COPPA
- Compliant with FERPA
- OnShape does not collect personal information of students for commercial purposes.

Cons:

- Can't tell where data is being stored.

Narrative:

Based on information from the OnShape privacy statements and IMS Global Dashboard the OnShape application should be safe to use. At this point we are not sure that the free version can be accommodated due to the email requirement. The Enterprise version would make it viable by using SSO but that version is \$3,000 annually.

Status: Pending
