Key Privacy points:

Pros:

GDPR compliant
FERPA compliant
COPPA compliant

Cons:

- We cannot determine where data is going to be stored. Could potentially be outside of the US.
- Special accommodations should be taken for allowing students under 13 to access the service.

Narrative: Tutor.com was provided by the SDE to offer students one-on-one interaction with live tutors via chat. At this point our IMS Global vetting process indicates that the tutor.com service meets most of their criteria to be safe to use. However, at this time it cannot be approved without determining how students will access the service and if we are fine as a district allowing students to interact with 3rd party tutors one-on-one.

Status: Not approved until instructional leaders give us the authorization to approve.
